

**Inspection Testing &
Consultancy Ltd.**

ENVIRONMENTAL POLICY STATEMENT

It is the intention of **Inspection Testing & Consultancy Ltd** to recognise the effects on the Environment, of its operations and activities and from its products and waste products arising.

The company recognises also that it is an integral part of corporate business planning to establish and develop environmental strategy to ensure these aims are met.

To this end, the company will strive to:

- monitor its business and process operations
- minimise the release of any pollutant
- recognise the damage potential to Air, Water or Land
- minimise waste, especially hazardous waste
- recycle materials
- dispose of waste only through licensed traceable handlers
- invest in improved energy efficient products
- conserve our use of non renewable resources
- endeavour to utilize renewable natural resources

All employees will be made aware of our energy efficiency and environmental policies and responsibilities will be developed throughout.

Signed
